Paul S. Auerbach MD, MS, FACEP, FAWM is the Redlich Family Professor of Surgery in the Division of Emergency Medicine at Stanford University. He is the world’s leading authority on wilderness medicine and is one of the world’s leading authorities on emergency medicine. A graduate of Duke University and Duke University School of Medicine, as well as the Stanford Graduate School of Business, Dr. Auerbach is editor of the definitive medical textbook *Wilderness Medicine*, and author of the books *Medicine for the Outdoors* (named one of the 10 outstanding healthcare titles for 2009 by the Wall Street Journal), *Field Guide to Wilderness Medicine*, *Diving the Rainbow Reefs*, and *Management Lessons from the E.R.* He is a founder and past President of the Wilderness Medical Society, and editor emeritus of the peer-reviewed medical journal *Wilderness and Environmental Medicine*. Dr. Auerbach serves as Chief Medical Officer for Healthline Networks, national medical consultant on hazardous marine animals to the Divers Alert Network (DAN), member of the National Medical Committee for the National Ski Patrol System, and elected member of the Council on Foreign Relations.

He is also an Attending Physician in the Emergency Department at Stanford University Hospital, where he is Director of Special Projects, teaches emergency medicine, and is involved in a number of research projects.
